

Certified Fiber Optic Training

Certified Training

Superior Commercial Training Courses and Accreditation

KITCO's superior hands-on training and testing programs can affordably have you up to speed and certified in a week or less!

5 DAY CERTIFIED TECHNICIAN

Learn to successfully terminate a variety of ST, SC, FC and Small Form Factor (SFF) connectors; perform fusion and mechanical splicing, and assemble a splice enclosure. Train to fully test and troubleshoot fiber optic cables and fiber optic systems using an OTDR, OLTS and various other testing equipment.

3 DAY CERTIFIED INSTALLER

Learn to successfully terminate a variety of ST, SC, FC and Small Form Factor (SFF) connectors and perform mechanical splicing. Train to test and troubleshoot fiber optic cable and fiber optic connectors using an OLTS, VFL, and a variety of other testing equipment.

1 DAY ADVANCED OPTICAL TIME DOMAIN REFLECTOMETER (OTDR)

Learn to successfully operate an OTDR to fully test and troubleshoot both singlemode and multimode fiber optic cables. Test and troubleshoot a Fiber Optic Cable Plant (FOCP) that has various faults. Learn to calculate a loss budget for the FOCP.

KITCO's training courses are industry recognized and approved for: BICSI Cabling Installation Program Continuing Education Credits (CEC's), certifications by 3M, NetTest, Alcoa Fujikura and Delphi Connection Systems. Industry standards including those of the Telecommunications Industry Association/Electronic Industries

1 DAY ADVANCED FUSION SPLICING

Learn to successfully perform fusion and mechanical splicing on both singlemode and multimode fiber optic cables. Verify performance with an OTDR. Train to organize cables and assemble a splice enclosure.

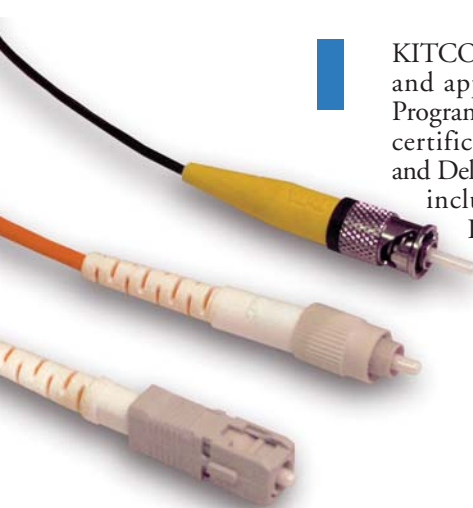

1 DAY 3M VOLITION DESIGNER

Learn to successfully design and estimate the 3M Volition Network Solution. Receive information and performance specifications to aid in designing and estimating the 3M Volition LAN System.

1 DAY 3M VOLITION INSTALLER

Learn to successfully install the 3M Volition Cabling System. Receive information and performance specifications to aid in installing the 3M Volition Cabling System.

Alliance (TIA/EIA) and the National Electrical Code (NEC) are incorporated into KITCO's courses and students are offered the option of taking the Electronics Technicians Association (ETA) Certified Fiber Optic Installer (CFOI) and the Fiber Optic Technician (FOT) certification exams.

Learn From the Fiber Experts

KITCO Fiber Optics' hands-on training and advanced certification programs have become the hallmarks of our superior reputation. And now, teaming with Accu-Tech, we offer training everywhere – at our main facility in Virginia Beach, Virginia, at your nearest Accu-Tech branch, or at your location through our mobile training services.

KITCO's instructors have spent thousands of hours in the field terminating and testing, consulting and teaching fiber optics to students around the globe. We never subcontract our training services. Our highly qualified instructors are full-time KITCO employees whose experience and industry certifications ensure you the most valuable hands-on fiber education currently available.

We train using a full inventory of non-vendor specific tool kits and test equipment. In KITCO's hands-on courses you'll train on the most

Train with the Most Advanced Equipment

advanced equipment utilizing a large variety of connectors, Light Sources, Power Meters, Optical Talk Sets, Optical Time Domain Reflectometers (OTDR), Fusion Splicers, Visual Fault Locators (VFL), curing ovens, equipment racks and interconnection boxes. But when required, our instructors can train you on your own tools and test equipment—tailoring our approach to meet your needs.

We Will Come to You

Benefits of KITCO's Mobile Training & Custom Courses:

Ease!

We will customize any of our courses and tailor them to meet your training and operational requirements. With our established mobile training teams we have the ability to train where you need it—at your place, ours or your nearest Accu-Tech location. And when scheduling is tight, we are flexible to meet your needs and can train after your normal business hours.

Savings!

By sending our instructors to your location, you can eliminate travel expenses incurred when sending your employees away for training.

KITCO also provides discounts for multiple employees from the same organization.
